

Remote Education for Nursery

Remote Education

During this time of Covid-19 there is a chance that your child will have to self-isolate at some point. This could be as an individual, or as part of the class bubble isolating. Should that happen, we want you to be confident in the remote education offer. Remote education does not mean 'online education', though we also include some websites that may be of use.

10 Key Skills

If your child is well enough to learn from home, there are 10 key skills that would be practised throughout the day, during 'continuous provision', which makes up the majority of the learning time. For your child's class, these are to be found on the right hand side of this page. In addition to these ten things, there are weekly suggestions on the parent home learning sheet (overleaf),

Tapestry

Every family should have access to Tapestry. This is predominantly for sharing evidence of learning, at home or at school. Should your child be isolating, please use this to record their learning and share it with the class teacher or ask any questions you may have. If the whole class is isolating, additional challenges may be included on the class Tapestry page.

Education City

Every child should have a sign in to Education City—please contact the school office if you do not have one. Teachers will set challenges, but you will also have access to all the activities.

Do not bring your child to school if they:

- Have a new and persistent cough;
- Have a fever (back and/or chest feel hot to the touch) or;
- Have experienced a change/loss in smell/taste.

If your child has any of these symptoms, we urge you to get them tested and inform us of any test results before returning to school.

We are unable to administer calpol/ibuprofen in school currently. If your child is not well enough to be in school without these, please do not bring them to school.

Useful Websites

- Youtube—Jack Hartmann, Cosmic Yoga
- Education City
- Phonics Bloom—Phase 1 Listening Games

Please see our website for more ideas!

10 Key Skills

1. Practice writing Pre-Writing shapes (these will be shared via Tapestry), mark making, name writing & letter formation -depending on which stage your child is at.
2. Number recognition from 1-5 or beyond- have a look around your house, can you spot any numbers? Take some photos of them and see if you can remember the numbers when you look at them again.
3. Counting objects or toys - can you point to each object as you count?
4. Drawing pictures, making models, do a collage—can you talk about your picture?
5. Play a game, taking turns with someone in your family.
6. Do some funky fingers activities - threading with pasta or cheerios - you could use string, wool, straws or spaghetti. Play with playdough and try squeezing and modelling it using your hands. (A playdough recipe will be shared on Tapestry)
7. Read and share stories.
8. Practice putting on own coat and shoes.
9. Do some baking, help make your own lunch or dinner.
10. Get active! Play in the garden - have a race with someone, practice throwing and catching a ball, set up an obstacle course.
