

# Remote Education for Reception

## **Remote Education**

During this time of Covid-19 there is a chance that your child will have to self-isolate at some point. This could be as an individual, or as part of the class bubble isolating. Should that happen, we want you to be confident in the remote education offer. Remote education does not mean 'online education', though we also include some websites that may be of use.

## **10 Key Skills**

If your child is well enough to learn from home, there are 10 key skills that would be practised throughout the day, during 'continuous provision', which makes up the majority of the learning time. For your child's class, these are to be found on the right hand side of this page. In addition to these ten things, there are weekly suggestions on the parent home learning sheet (overleaf),

## **Tapestry**

Every family should have access to Tapestry. This is predominantly for sharing evidence of learning, at home or at school. Should your child be isolating, please use this to record their learning and share it with the class teacher or ask any questions you may have. If the whole class is isolating, additional challenges may be included on the class Tapestry page.

## **Education City**

Every child should have a sign in to Education City—please contact the school office if you do not have one. Teachers will set challenges, but you will also have access to all the activities.

## **Do not bring your child to school if they:**

- Have a new and persistent cough;
- Have a fever (back and/or chest feel hot to the touch) or;
- Have experienced a change/loss in smell/taste.

If your child has any of these symptoms, we urge you to get them tested and inform us of any test results before returning to school.

We are unable to administer calpol/ibuprofen in school currently. If your child is not well enough to be in school without these, please do not bring them to school.

## **Useful Websites**

- Youtube—Jack Hartmann, Cosmic Yoga
- Education City
- Phonics Bloom—Phase 1 Listening Games

Please see our website for more ideas!

## **10 Key Skills**

1. Practise name writing and letter formation
2. Count objects e.g. cutlery for table, stairs, jumps, bricks etc.
3. Practice writing numbers 1-5 or beyond
4. Make words using letter cards sent home
5. Practise recognising numbers 1-10/10-20 and beyond by playing games e.g. hide and seek with number cards (make from small pieces of paper) - what numbers did you find?
6. Practise one more and one less than a number and use objects to help prove your answer e.g. pasta
7. Be a scientist: baking or being a nature detective looking for signs of autumn in your garden
8. Exploring shapes (triangle, square, oblong/rectangle, circle) and hunting for shapes around the home
9. Read and share stories together, asking questions to find out what they can remember from the story
10. Be creative: draw pictures, make models, collages of things that interest your child.
