

Year 1 Weekly Newsletter
Topic - Historical Heroes
Week commencing - 19.10.20

Maths

This week in maths we will be learning to solve addition problems by counting on from the greatest number, and also using our maths skills to find the missing numbers in our number sentences.

English and Phonics

This week we will be learning about the features of a letter and writing a letter.

History and Science

This week in History we will be looking at the history of trains and how they have changed over time.

In Science we will be investigating the different properties of water. We will be predicting and experimenting with water and looking at the changes.

Art, Music, DT and Computing

In computing children will learn how to use Scratch to create an animation of a vehicle.

In art children will be creating maps using different coloured string.

P.E.

Children will be continuing with gymnastics.

PSHE and RE

In RE we are learning about Jesus' special friends called his disciples.

In PSHE we will be learning about our bodies, and that we have a choice as to what our bodies do.

Other news

We have uploaded some new homework on Education City, it would be great to see lots of you completing this!

As we are learning about the properties of water in science this week perhaps you could do some water experiments at home. What happens when water gets frozen? What happens when ice gets warm? Is water always a liquid?
