Statement of intent

Geography develops pupils' understanding of the world in which they live through the study of place, space and environment.

Whilst geography provides a basis for pupils to understand their role within the world, by exploring locality and how people fit into a global structure, the subject also encourages children to learn through experience, particularly through practical and fieldwork activities.

Through the teaching of geography, The Limes Primary Academy aims to:

- Increase pupils' awareness, knowledge and understanding of other cultures.
- Develop pupils' graphic skills, including how to use, draw and interpret maps.
- Make pupils aware of environmental problems at a local, regional and global level.
- Encourage pupils to commit to sustainable development.
- Develop a variety of skills, including those in relation to problem-solving, ICT and presenting conclusions in the most appropriate way.

1. Legal framework

1.1.1. This policy has due regard to all relevant legislation and statutory guidance including, but not limited to, the following:

- DfE (2013) 'National curriculum in England: geography programmes of study'
- DfE (2017) 'Statutory framework for the early years foundation stage'

2. Roles and responsibilities

2.1. The Geography Lead, known as the lead geographer, will be responsible for:

- Preparing policy documents, curriculum plans and schemes of work for the subject.
- Reviewing changes to the national curriculum and advising on their implementation.
- Monitoring the learning and teaching of geography, providing support for staff where necessary.
- Ensuring the continuity and progression from year group to year group.
- Encouraging staff to provide effective learning opportunities for pupils.
- Helping to develop colleagues' expertise in the subject.
- Organising the deployment of resources and carrying out an annual audit of all geography resources.
- Liaising with teachers across all phases.
- Communicating developments in the subject to all teaching staff.
- Leading staff meetings and providing staff members with the appropriate training.
- Organising, providing and monitoring CPD opportunities in the subject.
- Ensuring common standards are met for recording and assessment.
- Advising on the contribution of geography to other curriculum areas, including cross-curricular and extra-curricular activities.
- Collating assessment data and setting new priorities for the development of geography in subsequent years.

2.2. Staff teaching Geography will be responsible for:

- Acting in accordance with this policy.
- Ensuring progression of pupils' geographical skills, with due regard to the national curriculum.

- Planning lessons effectively, ensuring a range of teaching methods are used to cover the content of the national curriculum.
- Liaising with the lead geographer about key topics, resources and supporting individual pupils.
- Monitoring the progress of pupils in their class and reporting this on an annual basis.
- Reporting any concerns regarding the teaching of the subject to the lead geographer or a member of the SLT.
- Undertaking any training that is necessary in order to effectively teach the subject.

3. Early years provision

- 3.1. Activities and experiences for pupils will be based on the seven areas of learning and development, as outlined in the DfE's 'Statutory framework for the early years foundation stage'.
- 3.2. Provision for early years pupils focusses on four specific areas:
 - Literacy
 - Maths
 - Understanding the world
 - Expressive arts and design
- 3.3. All activities will adhere to the objectives set out in the framework.
- 3.4. In particular, geography-based activities will be used to develop pupils' understanding of the world, helping them to comprehend a world beyond their local community.

4. The national curriculum

- 4.1. The national curriculum is followed and provides a full breakdown of the statutory content to be taught within each unit.

KS1 objectives

- 4.2. Locational knowledge:
 - Name and locate the world's continents and oceans.
 - Name, locate and identify characteristics of the countries which make up the United Kingdom (UK).
- 4.3. Place knowledge:
 - Understand the geographical similarities and differences of areas of the UK and of a small area in a contrasting non-European country.
- 4.4. Human and physical geography:
 - Identify seasonal and daily weather patterns in the UK.
 - Locate hot and cold areas of the world in relation to the equator.
 - Use basic geographical vocabulary to refer to key physical features, as well as human features, including buildings, vegetation and seasons.
- 4.5. Geographical skills and fieldwork:
 - Use world maps, atlases and globes to identify the UK and any other countries studied.
 - Use simple compass directions, locational terminology and directional language to describe the location of features and routes on a map.
 - Use aerial photos and plan perspectives to recognise landmarks and basic human and physical features.
 - Devise a simple map and construct basic symbols in a key.
 - Use observational skills to study the geography of the school and identify the key human and physical features of the surrounding environment.

KS2 objectives

4.6. Locational knowledge:

- Use maps to locate countries around the world, concentrating on Europe's and North and South America's environmental regions, major cities and key characteristics.
- Identify counties and cities of the UK, geographical regions and their identifying characteristics, key topographical features and land-use patterns.
- Understand the location and significance of the Tropics of Cancer and Capricorn, the Equator, the Northern and Southern Hemisphere, the Arctic and Antarctic Circle, the Greenwich Meridian and other time zones.

4.7. Place knowledge:

- Identify geographical similarities and differences through the study of human and physical geography of one region in the UK, Europe and North or South America.

4.8. Human and physical geography:

- Describe and understand key aspects of physical and human geography, including climate zones, biomes and vegetation belts, rivers, mountains, volcanoes and earthquakes, the water cycle, types of settlement and land use, economic activity and the distribution of natural resources.

4.9. Geographical skills and fieldwork:

- Use maps, atlases, globes and digital/computer mapping to locate countries.
- Use the 8 points of a compass and four- and six-figure grid references and symbols to build knowledge.
- Use a range of methods, including sketch maps, plans and graphs, and digital technologies, to record the human and physical features in the local area.
-

5. Cross-curricular links

5.1. Wherever possible, the geography curriculum will provide opportunities to establish links with other curriculum areas.

5.2. English

- Pupils are encouraged to use their speaking and listening skills to describe what is happening.
- Pupils' writing skills are developed through recording findings and creating reports.
- Pupils' vocabulary is developed through the use and understanding of specialist terminology.

5.3. Maths

- Pupils use their knowledge and understanding of measurement and data handling.
- Where appropriate, pupils record findings using charts, tables and graphs.
- Pupils use data analysis in order to identify patterns.

5.4. Science

- Pupils use their knowledge of the natural world to identify and analyse features of physical geography.
- Pupils' investigative and practical skills are developed through the use of fieldwork and problem-solving activities.

5.5. ICT

- ICT will be used to enhance pupils' learning.
- Pupils will use ICT to locate and research information.
- ICT will be used to record findings, using text, data and tables.

5.6. Spiritual development

- Pupils' development will be focussed on the vastness of the world, encouraging an appreciation and fascination.
- Pupils are encouraged to think about the effect of humans actions on the environment.
- Current geographical developments and issues will be discussed in the classroom, where appropriate.

6. Teaching and learning

- 6.1. Pupils will be taught to describe key characteristics and associated processes in common language, as well as understand and use technical terminology and specialist vocabulary.
- 6.2. Pupils will undertake independent work, and have the opportunity to work in groups and discuss work with fellow classmates.
- 6.3. Lessons will allow for a wide range of geographical, enquiry-based research activities, including the following:
 - Questioning, predicting and interpreting
 - Pattern seeking
 - Practical experiences
 - Collaborative work
 - Role-play and discussions
 - Problem-solving activities
 - Classifying and grouping
 - Researching using secondary sources
- 6.4. Lessons will involve the use of a variety of sources, including maps, data, statistics, graphs, pictures and videos.
- 6.5. Opportunities for outdoor learning and practical work will be provided wherever possible, such as investigating local environmental problems.
- 6.6. Each year group will have the opportunity to undertake an external educational visit, which will have geography links and opportunities to develop field work skills.

7. Assessment

- 7.1. Assessment in Geography will be undertaken as part of a broader evaluation of pupil progress measured against specified assessment criteria.
- 7.2. The lead Geographer will ensure that assessment:
 - Is embedded as an essential part of teaching and learning.
 - Involves sharing learning objectives and success criteria with pupils.
 - Aims to help pupils to know and recognise the standards they are aiming for.
 - Involves pupils in peer and self-assessment.
 - Provides subject-specific feedback which leads pupils to recognising their next steps and how to take them.
 - Involves both teacher and pupils reviewing and reflecting on assessment data.

8. Differentiation

- 8.1. The school recognises the fact that in all classes there are pupils of a variety of attainment levels, and we seek to provide suitable learning opportunities for all pupils by scaffolding for those children who need it and providing challenge through providing opportunities for deepening knowledge and understanding.

9. Monitoring and review

- 9.1. The lead geographer will monitor the geography curriculum delivery at least once a term, to review and evaluate the geography work within the school.
- 9.2. This policy will be reviewed annually to ensure that it complies with the latest legislation, guidance and best practice.
- 9.3. The next scheduled review date of this policy is March 2022.
